

Original Collection

The Trims

Surving Studios' Trims include traditional and specialty trims to frame and border your designs. All are made in nominal 6" lengths with varying widths and heights.

The Branch and Birch Liners and their matching Twigs look real and make a beautiful and unique trim. The Branches and Twig Liners have several variations and each order comes with a mixture to give a very natural effect. Trim a room with only the branches and the simplicity is lovely, or insert little 1" leaves or animals to add interest and a more decorative look.

Another unique trim we make are the Surf Liner and the Surf Pencil. These are available in 16 colors, each a blend of two colors from our palette. This becomes especially effective if the tile setter is sensitive to design and creates more variety by flipping the pieces.

Our new 2 x 6 connectors help make 2" borders possible. Add insects and frogs to the connecting vines or fish and shells to the rolling waves.
