The 6" Nudes

Richard Surving designs the nude tiles. We have been trying to get him to add some male nudes to frolic with the ladies, but no luck so far. There are four 6-inch women and one three-part mural (Serena Becoming a Mermaid).

The Volara design can create a lovely tumbling look by placing three or four of them vertically stacked and giving each a 1/4 turn from the last. The other ladies can also tumble to some extent.

Each nude can be ordered in the three background colors, Earth, Light and Water.
